

TONY DOVALE'S Re:THiNK Manifesto

Continuous and disruptive change is a now fact of life. This requires leaders and Entrepreneurs to be decisive and efficient in sensing, responding to, and optimizing, both anticipated and unexpected changes. Company culture plays a vital role in this success. Creating and sustaining a culture/Mindset that is beyond “change-ready”... a mindset of flexibility, agility, Resilient and proactive is an imperative to become, and remain a thriving and successful, high-performance organization(HPO's).

It's clear, that how we are living, and behaving, as a social system, is not sustainable, sane or Soulful. We've allowed GREEDERS to occupy powerful spots needing true LEADERSHIP. Politics, leadership, business, health, mindsets, attitudes, actions, energy systems and results are not smart, nor sustainable. We have clear signs, but no cohesion in next best actions. We have more insight, but no inspiring action. We have allowed our political, business and social systems to be infiltrated, marauded and plundered by geeders who do-much-evil, as the norm because they are purely profit/money driven. This must change if we, & our children are to thrive!

“WE MUST **RETHINK EVERYTHING**...IF WE ARE TO THRIVE TOGETHER AND LEAVE A POSITIVE LEGACY FOR OUR FUTURE GENERATIONS.”
